

Dear GDS Community,

With a successful first week of school behind us, we are about to begin our second full week of on-campus learning.

As I know, most of you have heard of the recent shifts to remote learning by some universities. For us to maintain on-campus learning at GDS - it is **UP TO EACH ONE OF US** to keep our community safe and healthy.

I invite you to watch [my video](#) as I go through the three main steps that will keep us safe and healthy and continuing to learn on the GDS campus.

The health and safety of our GDS Community involves all of us. We must commit to doing our part to help prevent any spread or outbreaks.

Sincerely,

Richard Rankin, Jr.
Anderson Davis Warlick Head of School
