

Have a BALL this summer! BUT.....

We've worked so hard this year and your child needs to go outside and play! **BUT...** we don't want ALL of their hard work to go to waste. We hope your child continues to be motivated to read, practice math facts and write a little throughout this summer!

Instead of a summer reading log we want you to read a book from the *Frog and Toad* series. This can be any *Frog and Toad* that you have not read. Please read it toward the end of summer so you will be ready to take your Reading Counts test for comprehension.

Also, we don't want to lose our math skills we have gained in first grade! There are many ways to practice addition and subtraction facts. Two ideas are simply saying them out loud to your child or writing them down. Make it fun!

Thank you and we look forward to getting to know your child next school year!
Mrs. Dellibovi and Mrs. Peak
