

Gaston Day School is an independent, coeducational day school for 500 students in grades PS-12.

This posting is for a full-time upper/high school science teacher. A competitive candidate will be well-versed in teaching Biology and AP Biology through hands-on inquiry activities, note-taking, class discussions, research projects, and group work. Applicants should be comfortable using and integrating technology into lessons in a 1:1 laptop environment. Classes will include Biology, Honors Biology, AP Biology, and an elective science course based on individual expertise and student interest.

The Gaston Day School Biology teacher instructs students in science concepts that align with the Next Generation Science Standards for Biology, incorporating the Science Practices and Cross-cutting concepts. In addition to supervising students in academic classes, GDS Upper School teachers supervise students during other school duties. Gaston Day teachers demonstrate a commitment to the well-being of all Gaston Day students and the best interests of the school as a whole.

Broad responsibilities:

- Instruct students in science in accordance with curriculum requirements and objectives, effectively using technology, textbooks, and other instructional materials as appropriate.
- Establish and actively maintain a class environment that honors excellence in learning and values respectful interaction between and among students.
- Work with students to develop a love of learning, academic integrity, and a thoughtful work ethic.
- Employ a variety of instructional techniques and assessments that integrate project-based learning opportunities.
- Participate as an active team member within the Science Department, the Upper School faculty, and the school community.
- Support and model the Upper School's advisory program and social contract.

Personal attributes:

- Enjoy interacting with students and partnering with families in their students' academic and character development.
- Show evidence of organization, self-motivation, punctuality, and collegiality.
- Show evidence of effective communication and interaction with all constituencies within the school.
- Show evidence of a willingness to contribute to the life of an independent school community.
- Possess the patience, nurturing character attributes, and sense of humor to influence and engage students effectively.
- Embrace innovation, creativity, and professional growth.

Reporting:

The Upper School science teacher will report to the Head of Upper School and the Science Department Chair.

Experience and education requirements:

A degree in science or a related field from an accredited institution is required, and an advanced degree is preferred. Three+ years teaching high school life sciences is also preferred.

Contact: To apply, please email a cover letter and resume to Carolyn Senter at csenter@gastoday.org

Gaston Day School is committed to increasing the racial, ethnic, and religious diversity of our faculty and staff. The School welcomes applicants who would bring additional dimensions to the school's teaching mission. In accordance with law, Gaston Day School is an equal opportunity employer and hires without discrimination on the basis of race, color, religion, national origin, sex/gender, age, or disability.
